SUMMARY

Innovative UI/UX Designer, Software Developer, and Web Developer with expertise in Figma, React.js, Next.js, and Spring Boot. Passionate about crafting user-centric designs and scalable applications while optimizing workflows and enhancing user experiences.

EXPERIENCE

Software Engineer Intern | UI/UX Designer

Bodhami Pvt Ltd, India (Remote & On-Site)   **July 2024 - August 2024，India**

- Designed and developed a dynamic vehicle showroom website using Next.js, resulting in a 25% increase in user engagement and a 30% reduction in page load times.
- Created a secure user signup system with PHP, SQL, and JavaScript, improving authentication efficiency by 20% and reducing security vulnerabilities by 15%.
- Led a team of 5 developers to build a Study Abroad CRM, streamlining student-advisor communication by 40% and improving response times by 25%.
- Conducted user research, wireframing, and prototyping in Figma, optimizing user workflows and reducing design approval times by 20%.
- Managed project backlog, database architecture, and remote collaboration, ensuring on-time delivery with a 95% deadline compliance rate.

PROJECT

Study Abroad CRM (Built with Angular, Spring Boot, and UI/UX Design Principles)

July 2024 - August 2024

- Creating a CRM system to improve communication between advisors, administrators, and students regarding study abroad operations.
- The platform effectively organizes administrative activities, student applications, and counseling initiatives.
- Currently being designed and implemented using Angular and Spring Boot, chosen for their resilience in both front-end interactivity and back-end functionality..

Kick Game: E-Commerce for Sneakers (HTML,CSS,JS, UI/UX, SQL)

November 2024   - December 2024

- Developed a fully functional e-commerce website for sneaker enthusiasts, featuring a responsive front-end and robust back-end.
- Implemented admin functionalities to manage products, suppliers, and brands, including the ability to add, remove, and update items.
- Designed and managed the back-end database using SQL for efficient handling of product inventory, brands, suppliers, and user data..

KickVault (Figma, Webflow, UI/UX Design)

March 2025 - March 2025

- Designed and developed a modern sneaker e-commerce platform using Figma & Webflow, increasing user retention by 30%.
- Created an interactive and responsive UI, ensuring seamless shopping experiences across devices.
- Focused on visual storytelling and branding, improving customer engagement and increasing conversions by 20%.

Jovian Careers Database (HTML, Python, SQL,UX/UI Research)

January 2024 - February 2024

- Gained experience in Python for back-end development and data management.
- Acquired skills in SQL for database creation, management, and querying.
- Enhanced understanding of integrating front-end and back-end technologies and effective data storage and retrieval methods..

EDUCATION

Bachelors in Computer Engineering

Don Bosco College of engineering • Goa, India • 2025 • 8.05

CERTIFICATIONS

Build Wireframes and Low-Fidelity Prototypes

Google • Jun '24

Conduct UX Research and Test Early Concepts

Google • May '24

SKILLS

UI/UX Design Skills: Figma, Adobe XD, HTML, CSS, webflow, Relume, Interaction, Responsive Design, Visual Storytelling, Branding

Programming Skills: JavaScript, C++, C, PHP, Python

Database Skills: MYSQL, MongoDB

Frameworks and Libraries: React, ThreeJS, Gsap, Tailwind, Bootstrap

Backend Technologies: Flask, SpringBoot
